

Affected: The Manor

Genre: Horror

Players: 1

Age: Teen

Choose a path and investigate the haunted manor to face your fears.

Choose one of three paths and take on The Manor, where terror lies at every turn. There are no puzzles to solve or coins to collect, just nightmares to face. With its immersive sound and graphics, Affected has become one of the most popular VR horror games. Can you make it to the end without screaming?

Controls

- Walk into the manor and choose one of three doors to enter
- Use your flashlight to illuminate the dark

The Bellows

Genre: Horror

Players: 1

Age: Teen

Plunge yourself into a world of nightmares and discover how frightening VR can be.

The storm has been raging for what feels like an eternity. As your windows clatter open yet again, you feel that something is not quite right. You cannot go back to sleep, so you must explore the building to its depth. A lantern is all you'll have to confront the darkness and the monsters that lurk within.

Controls

- Reach for the hovering lantern to pick it up
- Hold the trigger while moving the controller to interact (turn a key, raise a lever)
- Look behind you when you reach the end of the blocked corridor. The lights will go out - look back and the lantern will appear
- You will need to turn around when a scary apparition appears in the mirror - confronting your fears is the only way to move forward!
